York report on the augus market as piloves under date of December 7: Our hast report was dated 30th No-

vember. The week owened with havers displaying renewed interest in Cuban sugars for early shipment, the result be ing that a large business was done at further advance of 1-16c, all round,

The transactions were chiefly in Janmay ablument sugars at 2 7-16c, c. f., but they also included some December shipments at 256c, c. f., some February 7-16c c. f.

the week its spot or nearly affont angare, the stocks of the former being exhausted and the unsold sapplies of the intter, for December arrival, being restricted to about 8000 tons Javas, made up of two cargoes, one per satter and one per steamer, both held for prices above those now ruling here. basis of Cubas at 146c. c. f. for Decem ber shipment, the spot values of duty paid sugara are 3.86c, for 96 centrifugals, 2,39c, for 89 Muscovados and 2.11 for 89 molances sugars.

Weather conditions in Cuba have fav ed the starting up of factories and he present outlook is that the December visible production will considerably exceed that of 1994, which was 27,842

The campaign will be opened by a rst shipment of new crop sugars from Havana tomorrow.

The deficiency in the Louisiana crop over 100,000 ions, as compared with the previous crop, will cause New Orleans refiners to come into the marke for Cubus and Porte Ricos at a much earlier date than they did last season

At the close the market is dull and refiners are no longer beyers of Janu ary Cobas at 2 7-16c. c. f., and any presence to sell smears for that shipment would force a decline. European beet markets advanced 25

i, per cwt. in sympathy with this marset and on reports of unsatisfactory deld from the roots. Most of the adance has since been lost and today's Member o. b. quotations are: December, 9s 1 1/2 a.; January, 9s. 3d.; January-March, 912 FORT ST.
